

Parents Sustainability Workshop –
Tuesday 8/4 @ 7pm, Kameraigal room

Come along and join in to help draft our school's environmental management plan. This will be part of the school's 3 year management plan as it is key to us winning grants for water and solar projects. We will have David Roberts, from Willoughby City Council, guide us through the same workshop process that he has done with the teachers. Everyone will get to voice their ideas for a more sustainable school. We already have some very enthusiastic pupils and teachers and so now it is your chance to get involved early in the process.

For more info. On this event and the P & C Sustainability Committee please call Michael Swinsburg on 9419 6931.
